Star Community’s Equestrian Center is a great place for new and experienced riders of all ages to take horseback riding lessons. The equestrian center provides well-trained and well-mannered horses for riders to use and offers training in both English and Western styles.

The facility includes a large indoor, all-weather arena with special viewing areas for parents and guests. Star also has two outdoor arenas and a large area for trail riding.

Star Community’s equestrian center is accredited by the Professional Association of Therapeutic Horsemanship International (PATH Intl.)

Each training course consists of eight weekly sessions. Group, private and semi-private courses are available.

The lessons are for riders of all abilities, including beginners. Participants will be taught riding skills from basic to advanced techniques, starting at their initial skill level and progressing to higher-level skills throughout the course.

Riding lessons are a wonderful gift for a child or grandchild. They are also great for the adult getting ready for a special vacation that will involve horseback riding.

Star also provides therapeutic riding for individuals with special needs, including attention deficit disorder or other hyperactivity disorder, at-risk youth, autism, cerebral palsy, developmental delay or disability, down syndrome, emotional, behavioral, or mental health, head trauma/brain injury, Angelman syndrome, hearing impairment, learning disability, mental retardation, multiple sclerosis, muscular dystrophy, speech impairment, spina bifida, stroke, visual impairment and weight control disorders.

For additional information on course content and registration, contact Equestrian Center Director Ginny Gaylor or Barn Manager Vanedra Wingert at 301-791-6222.
